

EU/MERCOSUR: DRAFT LIST OF EU GEOGRAPHICAL INDICATIONS

Parámetros de análisis de conflicto adoptados por Mercosur:

- Solamente han sido considerados los nombres en sus lenguas originales. O sea, no han sido hechas traducciones. Debe haber en el texto del Acuerdo disposición clara de que la protección a la IG se da en su lengua original;
- Han sido consideradas las transliteraciones presentadas por la UE para aquellos nombres en alfabeto no romano;
- Para nombres compuestos, solamente la totalidad del nombre ha sido considerada en el análisis de conflictos. Debe haber en el texto del Acuerdo una disposición clara de que la protección a la IG es solo al conjunto y no cada una de las partes.
- En caso que hubiera diferencias con el criterio utilizado por la UE, MERCOSUR se reserva el derecho de modificar la presente identificación de conflictos.
